

JABER MASUD

Address: Sector 11, Uttara, Dhaka – 1230, Bangladesh

Mobile: +880 1871-344252

Email: njb99m@gmail.com

Career Summary

I'm a software engineer with over 4 years of experience in building web applications using PHP, Laravel, and other modern web technologies. I enjoy turning ideas into real products, whether it's developing new features, fixing tricky bugs, or improving system performance. Writing clean, readable code is important to me, and I follow best practices to ensure maintainability.

I'm always open to learning new tools and technologies that can help build better software.

Work Experience

Software Engineer | Bug Finder | 2023 - Present

- Built and optimized high-performance Laravel applications for better scalability.
- Designed RESTful APIs for integrations with third-party and internal systems.
- Enhanced system architecture, deployment, and maintenance for reliability.
- Collaborated with UI/UX teams to enhance user experience and usability.
- Conducted code reviews and optimized SQL queries for faster performance.
- Integrated third-party services such as payment gateways and virtual cards.
- Integrated Meta Official APIs (WhatsApp Cloud, Messenger, Instagram) into Omnichannel CRM for unified messaging.

Web Development Trainer | Knowledge IT Institute | 2022

- Conducted training sessions on PHP, Laravel, and modern JavaScript frameworks.
 - Developed course materials and hands-on projects for students.
 - Mentored students to build real-world applications and enhance coding skills.
-

Education

- **Bachelor's in Computer Science & Engineering**
Northern University Bangladesh, 2021-2024
- **Diploma in Computer Science & Engineering**
Feni Polytechnic Institute, 2016-2020
- **SSC from Science** – *Jogatpur High School, 2016*

Projects

Omnichannel CRM & E-commerce Platform – Core Developer & Architect

Project Documentation

Currently developing an Omnichannel CRM & E-commerce Platform integrating **Meta Official APIs** for a unified communication dashboard, with **CRM workflows** and **e-commerce features**, built for scalability and SaaS readiness.

- Implemented **full-stack development** for both frontend and backend.
- Built backend and real-time systems with Laravel using **webhooks**, **queues**, and **Laravel Reverb** for scalable messaging.
- Developed frontend with Blade templates in a **service-driven architecture**, using **interfaces** to handle multiple messaging channels; controllers can easily switch to **APIs** for **React** or other frontends.
- Delivered **Phase 1** of the core omnichannel module, based on my **architecture** and **documentation**, establishing a strong foundation for future phases.

Waiz – Digital Wallet and Remittance App and Website with Admin Panel

- Developed a full-featured wallet and remittance solution for global money transfers.
- Integrated multiple **payment gateways** & **virtual cards**: Stripe, Strowallet, Marqeta, Rapyd, Flutterwave, and Ufitpay.
- Built and optimized high-performance **RESTful APIs**.
- Project Link: [Waiz on Codecanyon](#)

Pay Secure – A Complete Digital Wallet Solution

- Built the **entire digital wallet platform**, including **add-ons** for agents and merchants.
- Enhanced **database and queries** for **faster, secure transactions**.
- Project Link: [Pay Secure on Codecanyon](#)
- **Addons**: Agent: [Link](#) , Merchant: [Link](#)
- **Mobile App** Links: [User-App](#), [Agent-App](#), [Merchant-App](#)
- Project & Collection Link: [Full Pay Secure Collection on Codecanyon](#)

Marketlyst – Digital Content Selling Platform

- Scalable, **multi-vendor digital marketplace** with advanced product management and automated delivery.
- Integrated **Sumsb KYC** and **Stripe Connect** for secure verification and payouts.
- Modern responsive frontend with Spark & Orbit themes, real-time search/filtering, multi-language support, reviews, support ticketing, and blog.
- Project Link: [Marketlyst](#)

Additional Projects

Beyond the projects listed above, completed and published several products for **Codecanyon** and **custom clients**, including advanced **chat systems**, **crypto exchange** platforms, and other bespoke web applications.

Training & Workshops

- PHP with Laravel Framework – PONDIT (Under BASIS SEIP), Dhaka, Uttara, Azampur.
 - Web Design & Development – SBIT, Feni, Mizan Road (1-year training 2017).
-

Language Skills

- Bengali – Native
 - English – Fluent
 - Hindi – Fluent (listening & speaking)
 - Urdu – Fluent (listening & speaking)
-

IT/Technical Skills

- MS Word, MS Excel, PowerPoint, ERP Solutions, Navision, email & internet operations.
-

Extra-Curricular Activities

- Mentoring & Training: Delivered web development training sessions at Knowledge IT Institute.
 - Event Organizer: Organized educational and tech-related programs during college and university.
-

Personal Information

- Full Name: Noor Jaber Bhuiyan Masud
 - Date of Birth: 1999
 - Religion: Islam
 - Marital Status: Unmarried
 - Nationality: Bangladeshi
 - Permanent Address: Feni
-
